

ThreeDViewport Keyboard Reference

Mode Switching (global)

Key	Action
B	Nudge selected keyframe 1 frame backward
C	Camera mode
F	Nudge selected keyframe 1 frame forward
G	Greyscale Toggle
I or Insert	Stamp keyframe for active mode
L	Light mode (press again to cycle to next light)
M	Model mode (move/rotate whole group as one unit)
O	Object mode (press again to cycle to next object)
P	Play / Pause
W	Wireframe toggle
Delete	Delete selected keypoint(s)
End	Jump playhead to end
Home	Jump playhead to start
Return	Commit keyframe edit
Shift+Tab	Previous keyframe on active track
Tab	Next keyframe on active track

Directional Keys

Hold for smooth repeat. Numpad equivalents: 4/6/8/2/+/-

Key	Camera	Object / Model	Lights
←	Pan left	Move left (X-)	Move left (positional) / Steer left (directional)
→	Pan right	Move right (X+)	Move right (positional) / Steer right (directional)
↑	Pan up	Move up (Y+)	Move up (positional) / Steer up (directional)
↓	Pan down	Move down (Y-)	Move down (positional) / Steer down (directional)
Shift+←	Look left (free-look yaw)	Rotate left (Y-, yaw)	Rotate azimuth left
Shift+→	Look right (free-look yaw)	Rotate right (Y+, yaw)	Rotate azimuth right
Shift+↑	Look up (free-look pitch)	Rotate up (X+, pitch)	Rotate elevation up
Shift+↓	Look down (free-look pitch)	Rotate down (X-, pitch)	Rotate elevation down
+ / KP+	Dolly in (move camera forward)	Move forward (Z+)	Move light forward (depth)
- / KP-	Dolly out (move camera backward)	Move backward (Z-)	Move light back (depth)
Option++	—	Scale up 5%	—
Option+-	—	Scale down 5%	—
[	Orbit yaw left	Roll left (Z-)	Rotate azimuth left
]	Orbit yaw right	Roll right (Z+)	Rotate azimuth right
R	Reset to defaults	Reset rotation to loaded orientation	Reset to default direction

Mouse

Button	Camera	Object / Model	Lights
Left drag	Axis-locked pan	Axis-locked translate	Axis-locked lateral move
Right drag	Free-look (both axes)	Free rotate (both axes)	Free rotate (azimuth + elevation)
Space + Left drag	Free orbit (all modes)	Free orbit (all modes)	Free orbit (all modes)
Scroll wheel	Lens zoom in/out (FOV)	Move forward / backward	Move light forward / backward (depth)

Timeline Editor

Command	Operation
Control+Left drag	Select multiple keyframes
Control+C	Copy keyframe(s)
Control+V	Paste keyframe(s) at scrub position
